I could use your opinion

As you may know, I'm a big fan of goals and plans. I created something I call the ***Index Card Plan System***. I've even gone so far as to write a document detailing the whole thing.

I tell my clients repeatedly that they need to "Acquire Specialized Knowledge." That is, they need to ASK. Ask their connections about different topics. It's a great way to learn about your customers and their wants and needs.

And so, I am asking. Give me about an hour of your time, and I hope you'll get some good advice in return.

First of all, here's the link to the Google Docs version -

<https://docs.google.com/document/d/1LI6XhB41UJVG4KLU-2Zb5PrR...>

Click on the link, and you'll have Comment access to the doc. You can highlight or click on an area of text, move your cursor off to the right side of the page, and leave comments.

The doc is 27 pages long, but please don't let that scare you. A lot of it is examples based on the different plans I outline.

Also, while I write about these being used in business, there is a section on SMART goals that can be used by anyone, and a general Index Card Plan that can be modified for almost any purpose.

I would appreciate it if you could either add annotations to the doc, or email me directly using the address in the last sentence of the doc. Your opinions would

really help me!

If you could comment before **10 AM Eastern time on Wednesday July 16th**, it would help a lot.
